This document is for REFERENCE only. Please review the below information carefully and see Pages **2-3** for information that will be requested via DocuSign. To move forward click HERE!

Please note that all ESSIE Graduate student forms must be completed via DocuSign only. We will no longer accept emailed or printed form submissions.

NOTE: All completed DocuSign forms are automatically set to the ESSIE GradForms email inbox!

# **ESSIE Final Examination Checklist**

- · Be certain to schedule a room several weeks in advance of your defense.
- Complete the packet of forms and provide them to your committee chair at least 2 business
  days prior to your defense date. Be certain to also include a current resume with your packet.
- Make certain that you sign the Publishing agreement at the defense and respond to all items on the form.
- Follow-up with your committee chair to be certain the completed forms have been submitted for processing.
- Check in GIMS to be certain your graduate record has been updated. Note that it takes up to 24
  hours for the information to update in your record from the time the forms have been
  processed by the Graduate Records office. Check with the Graduate Records office <u>PRIOR</u> to
  the final submission deadline if your information doesn't appear in your GIMS record and you
  have already defended.
- To send an Announcement of Final Examination to the ESSIE Events page, you should have the following information available to be included in the announcement:
  - The event name should be your First, MI, Last name with your degree and "Final defense" (John E Smith's XX final defense, where the XX is MS, ME or PhD)
  - o The date, time and location of your exam
  - Your Department, your committee chair's name and your dissertation title should be included in the Event Description
  - o SUBMIT TO essie.ufl.edu/news-events/submit-an-event

As a reminder, be certain to submit your thesis/dissertation to the Editorial office by the posted final submission deadline.

We know you are ready so be certain to show your committee that you are now the expert and....don't forget to BREATHE! You've got this!

THIS SECTION BELOW IS TO BE COMPLETED BY THE SUPERVISORY COMMITTEE:

Student Learning Outcome: Knowledge

in ability to identify, formulate, and solve environmental problems using scientific and engineering methods and tools

Rubric: Clear demonstration that this SLO achieved in statement of the hypotheses, performance of research, and conclusions drawn.

Metric: Unanimous decision of passing grade for the thesis and defense by the supervisory committee.

Has the student achieved this outcome? Rate on a scale of 1 to 5 with 5 being the highest. Written comments are encouraged for all students. For students scoring a 3 or below, the student advisory committee must provide written comments.

□ 1	□ 2	<u>=</u> 3	⊟4	<b>=</b> 5	
Comment:					

- Student Learning Outcome: Skills

  ➤ an ability to critically read and evaluate engineering or science literature

  ➤ an ability to use the techniques, methods, and appropriate professional tools necessary for professional practice at an advanced level

  ➤ an ability to communicate effectively

<u>Rubric:</u> Clear demonstration that this SLO achieved in literature review, methods, presentation of results and conclusions drawn. One journal article submitted to a refereed journal.

Metric: Unanimous decision of passing grade for the thesis and defense by the supervisory committee

Has the student achieved this outcome? Rate on a scale of 1 to 5 with 5 being the highest. Written comments are encouraged for all students. For students scoring a 3 or below, the student advisory committee must provide written comments.

□ 1	□ 2	=3	□4	⊞5	
Comment:					

Student Learning Outcome: Professional Behavior

> an understanding of professional and ethical responsibility

<u>Rubric:</u> Clear demonstration that this SLO achieved in the ethical and professional completion of the thesis, specifically avoiding plagiarism and demonstrating honesty in performance and documentation of the research.

Metric: Unanimous decision of passing grade for the thesis and defense by the supervisory committee

Has the student achieved this outcome? Rate on a scale of 1 to 5 with 5 being the highest. Written comments are encouraged for all students. For students scoring a 3 or below, the student advisory committee must provide written comments.
