# Civil Engineering Undergraduate Transfer Admissions

The Department of Civil Engineering admits qualified transfer applicants who have completed an Associate in Arts degree at a Florida public community or state college. Students seeking admission from other universities or out-of-state schools *may* be considered for admission on a space available basis. Transfer students are admitted in fall, spring, and summer terms.

#### **Admission Process**

<u>Freshmen admissions</u> are completed through UF's Office of Admissions at <u>www.admissions.ufl.edu</u>. The Civil Engineering department has no involvement or influence over freshmen admission decisions.

<u>Transfer admission</u> applications start at <u>www.admissions.ufl.edu</u>.

## Requirements

Applicants must meet the following criteria.

Meeting the minimum requirements does not guarantee admission.

- Completion of an associate's (AA) degree for all state/community college students from a public Florida institution or a minimum of 60 transferable credit hours for students from out of state or non-SUS Florida institutions.
- Completion of UF's foreign language requirement (2 sequential years of a foreign language in high school or a minimum of 8-10 college-level credits).
- A minimum 2.0 cumulative (overall) GPA.
- At the time of application review, applicants should have grades posted in at least 6 of the 7 critical tracking courses listed below with a minimum 2.5 critical tracking GPA.
- No more than two attempts are allowed for tracking courses. Withdrawals count as an attempt.
- A maximum of three double attempts in tracking courses will be allowed.

| Course   | Name                              | Credits |
|----------|-----------------------------------|---------|
| MAC2311  | Calculus with Analytic Geometry 1 | 4       |
| MAC2312  | Calculus with Analytic Geometry 2 | 4       |
| MAC2313  | Calculus with Analytic Geometry 3 | 4       |
| MAP2302  | Elementary Differential Equations | 3       |
| PHY2048  | Physics 1 with Calculus           | 3       |
| PHY2048L | Physics 1 with Calculus Lab*      | 1       |
| PHY2049  | Physics 2 with Calculus           | 3       |
| CHM2045  | General Chemistry 1               | 3       |
| CHM2045L | General Chemistry 1 Lab*          | 1       |

<sup>\*</sup>Chemistry 1 & Physics 1 labs are required but are not calculated into the critical tracking GPA for evaluation purposes.

Admitted students must have all 7 critical tracking classes completed upon enrollment at UF or admission is revoked. Recent transfer students admitted to CE have a significantly higher critical tracking GPA than the minimum 2.5 specified.

6/3/22

#### **Equivalencies**

Courses taken at a <u>Florida public college or university</u> with the same prefix and last 3 numbers are equivalent at any Florida institution (e.g., CHM 1045 is equivalent to CHM 2045). A "C" at the end of the course number indicates a combined class and lab (e.g., CHM 2045C is equivalent to CHM 2045 and CHM 2045L).

<u>Out of state</u> transfer transcripts are initially evaluated without equivalency review. If an out of state student is admitted, then the student needs to pursue equivalencies with the departmental undergraduate coordinator.

#### **Application Review**

Once a transfer application is <u>complete</u>, and the applicant meets the University of Florida minimum admission requirements, the file is reviewed by the department.

A student can check their application status at <a href="https://www.admissions.ufl.edu">www.admissions.ufl.edu</a>.

The department does not review or require letters of recommendation.

**All applications are reviewed at one time, not on a rolling basis**. The date of the review is based upon the number of processed applications. Applications may be processed weeks after the deadline. Applicants who exceed minimum requirements are most competitive for admission.

### **Application Deadlines**

Deadline extensions are not available at this time.

| Spring     | September 15 <sup>th</sup>  |
|------------|-----------------------------|
| Summer A/C | February 15 <sup>th</sup>   |
| Summer B   | February 15 <sup>th</sup> * |
| Fall       | May 1 <sup>st</sup>         |

<sup>\*</sup>Students applying for transfer in a Summer term are encouraged to apply for the Summer A/C term, as more relevant courses are available during this term.
