**TTE 4201/5256 - TRAFFIC ENGINEERING**

**Course Description:** The purpose of this course is to provide students with an overview of the fundamentals of traffic engineering, with emphasis on field studies, data analysis, level of service, and traffic control devices.

**Course Objectives:** This course deals with the technical aspects of traffic engineering. It covers the analytical procedures and computational methods employed in a wide variety of tasks related to traffic operations and control. A person who completes this course will be able to identify common operational problems, to carry out traffic engineering studies and to formulate and evaluate alternative solutions.

## Grading:

Grades will be given at the end of the semester based only on the work completed during the semester. Only assignments received by the due date/time will be eligible to receive full credit. Assignments will be accepted until the beginning of the next class period (11:45/12:50 PM), but will only be eligible to receive up to 75% of the original maximum. No credit will be given for assignments turned in after that period. It is acceptable to work with other classmates, and even recommended, to assist your learning of the material required to complete the in-class assignments. It is NOT acceptable to copy another person's or group's assignment solution(s).

The following grade distribution will be used for the course:

- In-class assignments - 25%
- Exam 1 - 25%
- Exam 2 - 25%
- Project - 25%

<b>Total Percentage of Available Points</b>	<b>Final Grade</b>
94+ %	A
90-94 %	A-
86-90 %	B+
82-86 %	B
78-82 %	B-
74-78 %	C+
70-74 %	C
66-70 %	C-
62-66 %	D+
58-62 %	D

**Class Demeanor and Etiquette:** This should follow the rules of common sense. Students are encouraged to participate in class discussion and to initiate such discussion whenever they feel that they or the class could benefit from a dialog with the instructor. Other actions that disturb the class are *strongly* discouraged. Use of a laptop for class-related activities is acceptable, but not for non-class activities (e.g., engaging in chat room discussions, E-mail, or surfing the web). ***Cell phones and pagers should be turned off or muted*** (if you need it for potential emergency notification, please see me before class to discuss). There is no official dress code for this class, but please dress appropriately. Again, use common sense--if it is something you typically wear in the bedroom, or on the beach, please do not wear it to class.

### **University/Class Policies**

**Honesty Policy:** UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (<https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor.

**Students Requiring Accommodations:** Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, <https://www.dso.ufl.edu/drc>) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.
