

**Traffic Flow Theory**  
TTE 6267  
**Class Periods:** MWF 10:40-11:30 am  
**Location:** On-line  
**Academic Term:** Fall 2020

***Instructor***

Dr. L. Elefteriadou  
e-mail: [elefter@ce.ufl.edu](mailto:elefter@ce.ufl.edu) – Please use Canvas for communicating with me about class matters  
Office Phone Number: 352-294 7802  
Office Hours: By appointment  
Office: 512B Weil Hall

***Teaching Assistant***

Agustin Guerra, [agustinguerra@ufl.edu](mailto:agustinguerra@ufl.edu)  
Please contact the TA through Canvas

***Course Description***

Vehicle-roadway-infrastructure interactions, equations of motion, and car-following; microscopic and macroscopic traffic characteristics and traffic stream models; simulation, queueing theory and shockwave analysis (3 credits)

***Course Pre-Requisites / Co-Requisites***

TTE 4201/5256 Traffic Engineering, or equivalent; otherwise instructor permission required.

***Course Objectives***

When you complete this course you will be able to evaluate how a highway facility would operate under a given set of conditions (demand, traffic stream characteristics, highway environment, etc.) and to determine what changes can be made in those conditions to improve operations.

More specifically, you will be able to:

- List the fundamental microscopic and macroscopic traffic flow characteristics.
- Formulate and apply theories for describing and explaining the motion of a single vehicle and groups of vehicles (including conventional, connected, and autonomous vehicles); examine theories regarding the movement of pedestrians and bicycles.
- Compare and contrast several traffic analysis techniques such as shockwave analysis, queueing analysis, and microsimulation.
- Apply these techniques to a variety of highway facilities (for example, freeways, urban streets, roundabouts, pedestrian facilities and crosswalks, etc.)
- Review the state-of-the-art in traffic management techniques, autonomous and connected vehicle trajectory optimization, signal control optimization, and freeway management.

***Materials and Supply Fees***

N/A

***Required Textbooks and Software***

An Introduction to Traffic Flow Theory, L. Elefteriadou, Springer, 2014

***Statistics Videos and References***

### **Other Recommended Materials**

Cyber Physical Systems in Transportation: Traffic Management With Connected and Autonomous Vehicles”, Chimay J. Anumba and Nazila Roofigari-Esfahan (Eds): Cyber-Physical Systems in the Built Environment, Springer, July 2020, <https://doi.org/10.1007/978-3-41560-0>  
Highway Capacity Manual 6th Edition (HCM6), Transportation Research Board, Washington DC, 2016  
Traffic Engineering, Roes, Prassas, McShane, 5th Edition, 2019  
Traffic Flow Theory, A monograph (Web Document: [www.tfhr.gov/its/tft/tft.htm](http://www.tfhr.gov/its/tft/tft.htm))  
Traffic Flow Fundamentals, Adolf D. May, 1990  
Introduction to the Theory of Traffic Flow, Wilhelm Leuzbach, 1988

### **Course Schedule**

- Lecture 1 INTRODUCTION: Role of traffic flow theory in transportation, objectives of traffic flow theory, relationships to other areas of transportation.
- Lecture 2 PART I, CHAPTER 1: Vehicle/driver/environment interactions, motion of a single vehicle, constant speed, constant acceleration.
- Lecture 3 CHAPTER 1: Varying acceleration, acceleration functions, vehicle trajectories.
- Lecture 4 CHAPTER 1: Vehicle, driver, environment considerations for equations of motion for a single vehicle.
- Lecture 5 CHAPTER 2: Modeling vehicle interactions and the movement of groups of vehicles, car-following.
- Lecture 6 CHAPTER 2: Currently used car-following models.
- Lecture 7 CHAPTER 2: Lane changing and gap acceptance models.
- Lecture 8 PART II, CHAPTER 3: The traffic stream, traffic flow performance, flow and time headways.  
*REVIEW: Distributions, hypothesis testing, comparing means.*
- Lecture 9 CHAPTER 3: Speed, space mean speed and time mean speed. *REVIEW: Comparing distributions, required sample size, chi-square hypothesis testing.*
- Lecture 10 CHAPTER 3: Density and space headway. *REVIEW: K-S test for comparing distributions.*
- Lecture 11 *REVIEW: Hypothesis tests of means and variances for speeds and headways.*
- Lecture 12 CHAPTER 3: Traffic stream models, the Greenshields model, HCM traffic stream models
- Lecture 13 CHAPTER 3: Mathematical expressions of traffic stream models, relationship between traffic stream and car-following models.
- Lecture 14 Pedestrian and bicycle flow models.
- Lecture 15 CHAPTER 4: Capacity and its definition, breakdown and breakdown probability distributions.
- Lecture 16 CHAPTER 5: Traffic operational performance measures, travel time and delay, travel time reliability, queue length and other mobility performance measures, MOEs in the HCM [**Material up to here for mid-term exam**].
- Lecture 17 PART III, CHAPTER 6: Traffic operational analysis techniques, shock wave analysis, types of shockwaves.
- Lecture 18 CHAPTER 6: Cumulative plots, queuing analysis, deterministic queuing.
- Lecture 19 Overview of the *Highway Capacity Manual, 6<sup>th</sup> Edition*.
- Lecture 20 Queue accumulation polygons in the HCM, stochastic queuing, applications of queuing analysis.
- Lecture 21 CHAPTER 7: Simulation modeling, stochastic micro-simulation, Random Number Generators
- Lecture 22 Wednesday, Oct. 21 - REVIEW SESSION**
- Lecture 23 Friday, Oct. 23 - MID-TERM EXAM**
- Lecture 24 CHAPTER 7: Components of a traffic simulator, using an existing simulator.
- Lecture 25 Hardware-in-the-loop, driving simulators, vehicle simulators.

Lecture 26	Traffic Operational Analysis Techniques – Which one to use when?
Lecture 27	PART IV, CHAPTER 8: Highway facilities and principles for their analysis, freeway segments and systems, freeway merging, diverging, and weaving.
Lecture 28	CHAPTER 8: Advanced traffic management methods for freeway facilities, ramp metering.
Lecture 29	CHAPTER 8: Variable speed limits, HOV/HOT lanes, congestion pricing, HCM methods
Lecture 30	Connected and autonomous vehicles, truck platooning, trajectory optimization for merging and weaving.
Lecture 31	CHAPTER 9: Signalized intersections, signalization principles and traffic operations.
Lecture 32	CHAPTER 9: Signalized intersections, saturation headway, lost time, and capacity.
Lecture 33	CHAPTER 9: Signalized intersections, delay estimation, and quality of service.
Lecture 34	CHAPTER 9: Signal control optimization for isolated intersections, actuated control, HCM methods.
Lecture 35	CHAPTER 9: Signal control for arterials and networks, offsets and coordination.
Lecture 36	Signal control and trajectory optimization.
Lecture 37	CHAPTER 10: Unsignalized intersections and roundabouts, principles of gap acceptance.
Lecture 38	Highway networks, interactions between freeways and arterials.
Lecture 39	Innovative intersections and interchanges.

**Lecture 40**    **Wednesday, Dec. 9 - CLOSING AND REVIEW SESSION**

**FINAL EXAM (18A) Friday, December 18, 7:30-9:30 am**

***Online Course Recording***

Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

***Attendance Policy, Class Expectations, and Make-Up Policy***

a.        Attendance:

For on-campus students, class attendance is encouraged and you are responsible for material assigned in the readings and covered in class. Any absence should be coordinated in advance, if possible. Late assignments (unless coordinated in advance) will have a 5% grade reduction per day. (Delay up to 24 hours will have a reduction of 5 %, etc.) Excused absences must be in compliance with university policies in the Graduate Catalog (<http://gradcatalog.ufl.edu/content.php?catoid=10&navoid=2020#attendance>) and require appropriate documentation. For EDGE students, you are responsible for keeping up with viewing the lectures and completing the assignments on-time. It is extremely important that you ask any questions you may have in a timely manner, so that you do not fall behind in the assignments and the lecture material.

b.        Classroom Procedures:

Bring the book, course notes, any additional assigned reading material, a calculator, and note taking material to each class period. Cell phone use during class is strictly prohibited, and all cell phones should be turned off during class. If you know you will have to miss a lecture, or have a conflict with an exam time please let me know as soon as possible.

c.        Additional Instruction:

If you are having a difficult time understanding a concept, coordinate a time with me or the TA for additional instruction, as needed.

d. **Written Submissions:**

A significant part of engineering is written communication. Strong emphasis will be placed on the clarity, organization and readability of your work. It is preferable that the assignments and reports are typed, but in the event they are hand-written, they must be very neatly presented. All information extracted from external references (journals, books, etc.) must have appropriate notation and bibliographic citations. Assistance from other students or instructors must be properly acknowledged as a parenthetical note and a proper bibliographic citation.

EDGE students: Please do not hesitate to contact me via e-mail (through the Canvas system) to ask questions and to resolve any issues that arise throughout the course.

***Evaluation of Grades***

<b>Assignment</b>	<b>Total Points</b>	<b>Percentage of Final Grade</b>
Homework Sets (7-8)	100 each	40%
Midterm Exam	100	30%
Final Exam	100	30%
		100%

***Grading Policy***

<b>Percent</b>	<b>Grade</b>	<b>Grade Points</b>
95.0 - 100.0	A	4.00
90.0 - 94.9	A-	3.67
85.0 - 89.9	B+	3.33
80.0 - 84.9	B	3.00
75.0 - 79.9	B-	2.67
70.0 - 74.9	C+	2.33
65.0 - 69.9	C	2.00
60.0 - 64.9	C-	1.67
55.0 - 59.9	D+	1.33
50.0 - 54.9	D	1.00
45.0 - 49.9	D-	0.67
0 - 44.9	E	0.00

More information on UF grading policy may be found at:

<http://gradcatalog.ufl.edu/content.php?catoid=10&navoid=2020#grades>

***Students Requiring Accommodations***

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, <https://www.dso.ufl.edu/drc>) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

***Course Evaluation***

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

### ***University Honesty Policy***

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (<https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

### ***Software Use***

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

### ***Commitment to a Safe and Inclusive Learning Environment***

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Robin Bielling, Director of Human Resources, 352-392-0903, [rbielling@eng.ufl.edu](mailto:rbielling@eng.ufl.edu)
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, [taylor@eng.ufl.edu](mailto:taylor@eng.ufl.edu)
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, [nishida@eng.ufl.edu](mailto:nishida@eng.ufl.edu)

### ***Software Use***

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

### ***Student Privacy***

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: <https://registrar.ufl.edu/ferpa.html>

### ***Campus Resources:***

#### *Health and Wellness*

##### **U Matter, We Care:**

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact [umatter@ufl.edu](mailto:umatter@ufl.edu) so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing

staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

**Counseling and Wellness Center:** <http://www.counseling.ufl.edu/cwc>, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

**Sexual Discrimination, Harassment, Assault, or Violence**

If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the **Office of Title IX Compliance**, located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, [title-ix@ufl.edu](mailto:title-ix@ufl.edu)

**Sexual Assault Recovery Services (SARS)**

Student Health Care Center, 392-1161.

**University Police Department** at 392-1111 (or 9-1-1 for emergencies), or <http://www.police.ufl.edu/>.

Academic Resources

**E-learning technical support**, 352-392-4357 (select option 2) or e-mail to [Learning-support@ufl.edu](mailto:Learning-support@ufl.edu).
