CGN 4806: Special Problems in Civil Engineering
“Transportation Water Materials Design”
Required Capstone Course for Hydrology & Water Resources and Transportation Tracks
Elective Capstone Course for General CE Track

1. Catalog Description
Selected problems or projects in the student’s major field of engineering study.
Credits: 3 for “Transportation Water Materials Design” Capstone course.

2. Prerequisite
Recommendation of undergraduate coordinator.

3. Course Objectives
Exposé students to the business of engineering design by participating on multidisciplinary teams in an actual design project with as realistic conditions as can be created in the classroom. This course is intended to be the pinnacle or capstone of the college career of the student, incorporating material learned in all the courses taken to date, using the science and engineering fundamentals learned, along with the ability to communicate clearly about what is being done in solving a design problem. At this stage, the student should be able to perform the assigned design project in this class with little or no technical instruction.

4. Contribution of Course to Meeting the Professional Component (ABET only)
This course contributes to the design of systems and components to meet desired needs, functioning on multi-disciplinary teams, and communicating effectively through written proposals and reports and verbally through formal public presentations, while supporting the College’s education objectives.

5. Relationship of Course to Program Outcomes (ABET only)
   a) 10% - Apply knowledge of mathematics, science, and engineering
   c) 25% - Design systems and components to meet desired needs
   d) 30% - Function on multi-disciplinary teams
   g) 25% - Communicate effectively
   k) 10% - Use state-of-the-art problem-solving tools and techniques

6. Online Class Statement

   Online Course Recording
Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

   In-Class Recording
Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in
preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third-party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

7. Instructor  
Shirish Bhat  
Office Location: TBD  
E-mail: sbhat@ufl.edu  
Phone: TBD  
Office hours: Mon 11:00 am – 1:00 pm (group meetings on Teams); Weekdays after hours (appointments)

8. Meeting Times  
Mon; Periods 8, 9, and 10 (3:00 pm - 6:00 pm)

9. Class/Laboratory Schedule  
One 150-minute session per week

10. Meeting Location  
Weil Hall 0273 (Instruction)  
Canvas - E-Learning @ UF (Class materials access; assignments and reports submittal)

11. Material and Supply Fees  
N/A

12. Textbook and Software  
No textbook is required. Following is a partial list of reference materials and software that are available for free. Other references will be recommended and/or provided as deemed necessary.

13. Course Outline
Multidisciplinary design project

Phase I: Proposal Writing (20%)
- FDOT Request for Proposal (RFP) and Scope of Services
- Proposal writing and presentations
- Project scheduling

Phase II: Project Development & Environment (40%)
- Field investigation
- Conceptual design development from FDOT Scope of Services
  a. Roadway analysis
  b. Pavement design
  c. Multilane highway segment analysis and traffic signalization
  d. Drainage and pond siting, culvert and ditch design, stormwater management system design
- PD&E presentations

Phase III: Preliminary Design (30%)
- Roadway conceptual design
- Engineering reports submissions
- Design project presentations

Team Participation (10%)

15. Attendance and Expectations
Because of the limited number of class meetings and the multi-disciplinary team nature of this course, each student is expected to attend every class, and effectively use the class time to identify, assign and coordinate work assignments and effort among the team members.

16. Grading (Methods of Evaluation)
There are no examinations for this class. For each phase of an assigned project, each group will receive a numeric grade (maximum of 100) for the written submittal and the presentation. After each phase submission and presentation, each manager is required to submit a team participation report for her or his group. It should reflect the percent contribution each team member made toward the submission, with all percentages totaling 100%. At the end of the semester, each student will be asked to summarize the performance of their team members over the semester by completing an optional peer review. Everyone’s final numeric grade will be calculated from the group numeric grades received from the instructor and individual numeric grades received from managers and peer reviews. The relative weights of the individual numeric grades are: Phase I - Proposal (20%), Phase II - Project Development and Environment Submission (40%), Phase III - Preliminary Design (30%), and Team Participation (10%). The total marks for team participation will be distributed based on your involvement in team participation, group discussion, and class attendance. Involving in these activities is highly encouraged. Finally, these numeric grades will be translated to letter grades.

17. Grading Scheme

</table>

Information on current UF grading policies for assigning grade points may be found at: https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx#grades.

18. Late Submission Policy
Any presentation that is not presented on the scheduled date will receive a zero. Late reports will lose 5 points for each day late. You can no longer be able to submit reports after two days, and you will receive a zero.

19. Honesty Policy
All students admitted to the University of Florida have signed a statement of academic honesty committing themselves to be honest in all academic work and understanding that failure to comply with this commitment will result in disciplinary action. This statement is a reminder to uphold your obligation as a UF student and to be honest in all work submitted and exams taken in this course and all others.

Information on current UF’s Student Conduct and Honor Code may be found at: https://www.dso.ufl.edu/%20sccr/process/student-conduct-honor-code and the ASCE Code of Ethics may be found at: http://www.asce.org/code-of-ethics/

20. Accommodation for Students with Disabilities
Students requesting classroom accommodation must first register with the Dean of Students Office. That office will provide the student with documentation that he/she must provide to the course instructor when requesting accommodation.

21. UF Counseling Services
Resources are available on-campus for students having personal problems or lacking clear career and academic goals. The resources include:
- University Counseling Center, 301 Peabody Hall, 392-1575, Personal and Career Counseling.
- SHCC Mental Health, Student Health Care Center, 392-1171, Personal and Counseling.
- Center for Sexual Assault/Abuse Recovery and Education (CARE), Student Health Care Center, 392 1161, sexual assault counseling.
- Career Resource Center, Reitz Union, 392-1601, career development assistance and counseling.

22. Software Use
University of Florida faculty, staff and students are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

23. Course Evaluations
Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens. They can complete evaluations through the email they receive from GatorEvals in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

24. Diversity and Inclusion
The Herbert Wertheim College of Engineering (HWCOE) values a diverse and inclusive community. It is integral to success in every area of our college. Therefore, the College is committed to non-discrimination with respect to all areas of human differences, including but not limited to national and ethnic origin, race, age, sex, sexual orientation, gender identity and expression, beliefs and opinions, religion, and faiths, culture, socio-economic background, level of physical or mental ability, and veteran’s status. This commitment applies in all areas-to students, faculty, and staff and intends to reflect the College’s belief that educational and employment decisions and access to University activities should be based on an individual’s abilities and qualifications.
The HWCOE values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. We aspire to educate students to become future leaders capable of creating diverse and inclusive work cultures wherever their careers may take them.
