

Construction Modeling and Simulation

CGN 4905 Section 19762; CGN 6905 Section 19763

Class Periods: Thursday Period 9-11 (4:05PM – 7:05PM EST)

Location: In-person and Zoom BOTH AVAILABLE; All lectures will be recorded and shared

If you prefer to in-person: **Weil 408A CBD 0210**

If you prefer to attend on Zoom: <https://ufl.zoom.us/j/4369404526>

Academic Term: Fall 2021

Instructor:

Eric Jing Du

eric.du@essie.ufl.edu

(352) 294-6619

Office Hours: R: 2:00PM-3:30PM, Zoom: <https://ufl.zoom.us/j/4369404526>

Course Description

3 credit hours

Course Pre-Requisites / Co-Requisites

Instructor permission

Course Objectives

Exploration of data-rich, object-oriented, and parametric representation technologies of civil engineering facilities, from which views and information can be extracted and analyzed for construction project acquisition, planning, and controls. Topics include Building Information Modeling (BIM) for engineering design, model-driven cost estimating, construction operations simulation, scanning and photogrammetry technologies, and advanced topics in construction modeling and simulation. Students will:

1. Understand the use of Building Information Modeling (BIM) in construction management
2. Learn how to create a Building Information Model (BIM for design)
3. Learn how to detect clashes between building components using BIM (constructability review)
4. Learn how to create 4D Construction Visualization Models (BIM simulation)
5. Learn how to use BIM to estimate project cost (5D)
6. Learn other emerging visualization technologies (**Graduate students only**)
7. Learn how to formulate BIM-related research (**Graduate students only**)

Required Textbooks and Software

No required textbooks. **The following software packages are required to be installed:**

- Autodesk Revit 2020
- Autodesk Navisworks Manage 2020 (note: Not Navisworks 360)
- Autodesk Recap Pro
- **Optional:** Lumion 11 (<https://lumion.com/>) This program requires high-end graphic cards to be installed in your computer. It is optional.

All Autodesk software packages are free to UF students. Please go to <http://www.autodesk.com>. Register and login with your UF email, and then go to “Manage Products and Downloads”.

Materials and Supply Fees

No materials and supply fees. However, computers (desktop or laptop) that can support Autodesk software packages (listed in “Required Textbooks and Software”) are required for homework and team projects.

Specifications recommended by Autodesk can be found at <https://knowledge.autodesk.com/support/revit-products/learn-explore/caas/sfdcarticles/sfdcarticles/System-requirements-for-Autodesk-Revit-2020-products.html>.

***Apple Users:** Please note Apple operation systems (e.g., MacOS) are NOT compatible with Autodesk products. If you own Apple computers (e.g., MacBook, iMac), please use Boot Camp to install Windows OS as the secondary operation system. Make sure to allocate enough disk space to the secondary Windows OS (>200 GB) as most Autodesk software packages take up a lot of space.

***UF Apps: if you are having troubles installing the required software packages on your personal computer, an alternative is UF Apps.** <https://info.apps.ufl.edu/>. UF Apps allows you to use your web browser or “virtual

Construction Modeling and Simulation, CGN 4905/6905

Eric Jing Du, Fall 2021

Page 1

machine” to open remote software packages installed on UF IT servers. It provides access to software applications from any computing device--laptops, tablets, desktops, and smartphones--from any location, at any time. We will go over UF Apps together in day 1 of the class (8/26/2021).

Recommended Materials (Optional)

- *BIM and Construction Management: Proven Tools, Methods, and Workflows*
 - Brad Hardin
 - 2015 2nd edition
 - ISBN: 978-1-118-94276-5

- *BIM Handbook: A Guide to Building Information Modeling for Owners, Designers, Engineers, Contractors, and Facility Managers*
 - Rafael Sacks, Chuck Eastman, Ghang Lee, and Paul Teicholz
 - 2018 3rd edition
 - ISBN: 978-1119287537

Course Schedule

Dates	Topics	Presenters	Assignment Due
Week 1 (8/26)	Introduction and Course Overview A brief history of BIM	Dr. Eric Jing Du Dr. Eric Jing Du	
Week 2 (9/2)	Lab: Revit tutorial 1 - Architecture Lab: Revit tutorial 2 - Architecture - cont'd	LAB LAB	
Week 3 (9/9)	BIM Overview Lab: Revit tutorial 3 - Structure	Dr. Eric Jing Du LAB	
Week 4 (9/16)	Class exercise – Bidding game Lab: Revit tutorial 4 - MEP	Class exercise LAB	
Week 5 (9/23)	BIM and Pre-construction Lab: Navisworks tutorial 1 - Clash Detection	Dr. Eric Jing Du LAB	
Week 6 (9/30)	4D BIM - BIM for Scheduling Lab: Navisworks tutorial 2 - 4D Simulation	Dr. Eric Jing Du LAB	
Week 7 (10/7)	4D BIM - BIM for Scheduling - cont'd Dream House/BIM Model Presentations	Guest Students	Dream House Models Due
Week 8 (10/14)	LiDAR scanning Lab: 3D scanning - LiDAR	Dr. Eric Jing Du LAB	
Week 9 (10/21)	Clash Detection Presentations Lab: 3D scanning - Photogrammetry	Students LAB	Clash Detection Files Due
Week 10 (10/28)	Photogrammetry Lab: Let's Fly a Drone!	Dr. Eric Jing Du LAB	
Week 11 (11/4)	4D BIM Presentations / Scanning homework presentations Lab: Assemble tutorial 1	Students LAB	4D BIM models Due/ Photogrammetry/Scanning Files Due
11/11	Veterans Day (No Class)		
Week 12 (11/18)	5D BIM - BIM for Estimating Lab: Assemble tutorial 2	Guest LAB	
11/25	Thanksgiving (No Class)		
Week 13 (12/2)	FINAL PRESENTATIONS	Students	5D BIM Due
12/9	Reading day (No Class)		
Week 14 (12/15)	NO CLASS; NO FINAL EXAM All Presentations/Reports Due		

Attendance Policy, Class Expectations, and Make-Up Policy

Class attendance is expected. Students are responsible for any information communicated during class. Project presentation attendance is mandatory. Missed presentations can only be made up when it is an excused absence. Excused absences must be consistent with university policies in the undergraduate catalog (<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>) and require appropriate documentation. Student must contact the instructor as soon as the student knows that he/she will have an excused absence to arrange for makeup.

Evaluation of Grades – Undergraduate students

ID	Assignment	Total Points	Percentage of Final Grade
Individual project			
A	My Dream House project	100	30%
B	Pop quizzes	100	10%
Team projects			
C	Constructability and Clash Detection	100	10%
D	Construction Estimating	100	10%
E	4D Construction Model	100	10%
F	Photogrammetry Project	100	10%
G	Final Presentation	100	20%
H	Peer Evaluation (team members)	1.0	Multiplier
Final Grade=A*30%+B*10%+H*(C+D+E+F)*10%+H*G*20%			

Evaluation of Grades – Graduate students

ID	Assignment	Total Points	Percentage of Final Grade
Individual project			
A	My Dream House project	100	30%
B	Pop quizzes	100	10%
C	Final BIM review paper	100	10%
Team projects			
D	Constructability and Clash Detection	100	10%
E	Construction Estimating	100	10%
F	4D Construction Model	100	10%
G	Photogrammetry Project	100	10%
H	Final Presentation (must include visualization project)	100	10%
I	Peer Evaluation (team members)	1.0	Multiplier
Final Grade=A*30%+B*10%+C*10%+I*(D+E+F+G)*10%+I*H*10%			

My Dream House Project (undergraduate and graduate students)

1. Create the Revit model of your dream house (no drawings will be provided) (using Revit).
2. Submit the “.rvt” file containing your model using Google Drive.
3. Put as many building components as you can. (Ex. foundation, walls, columns, doors, windows, MEP, and so on)
4. No accurate dimension is required.
5. Prepare a walkthrough using Revit or other tools such as Modelo (<http://modelo.io>), or Lumion.
6. Prepare a video to “sell” your dream house.
7. **Give a 5-min presentation to the class on October 7.**
8. The model will be evaluated by the class (50%) and instructor (50%) based on completeness 30% (if architecture, structure and MEP systems are modeled and presented), design 40% (how good the design is) and presentation 30% (how well the model is presented).
9. **Bonus point: a demo with Virtual Reality or Augmented Reality (Augment).**

Constructability and Clash Detection (undergraduate and graduate students)

1. A model will be provided - Review the provided model.
2. Find any clashes between building components (using Navisworks).
3. Produce a discrepancy report presenting 10 most critical clashes and solutions.
4. A proper description, necessary snapshots, and some suggestions are expected for each clash.
5. Submit the “.doc” file containing the discrepancy report.
6. Submit the “.nwd” file containing the federated model.
7. **Give a 10-min presentation to the class on October 21.**
8. The ability to detect clashes and explain them will be evaluated by the *classmates* (20%) and the *instructor* (80%).
9. **Bonus point: Using BIM Cloud tools (e.g., 360 or Modelo) to coordinate with other team members and present the process.**

4D Construction Model (undergraduate and graduate students)

1. Develop the list of the activities (line items) and their durations.
2. Combine the 3D model and line item information (in Navisworks or Synchro).
3. Submit the “.nwd” or “.syn” file containing a 4D Construction Model.
4. **Give a 5-min presentation to the class on November 4 (total presentation time is 10 mins for both 4D and Photogrammetry/Scanning).**
5. The ability to develop a 4D Construction Model will be evaluated by the *classmates* (20%) and the *instructor* (80%).

Photogrammetry or scanning project (undergraduate and graduate students)

1. Build a 3D model of any UF structure (interior or exterior) using Photogrammetry or LiDAR.
2. Submit the model (file or address) using Google Drive
3. **Give a 5-min presentation to the class on November 4 (total presentation time is 10 mins for both 4D and Photogrammetry/Scanning).**
4. Present to the class; it will be evaluated by the *classmates* (20%) and the *instructor* (80%).

Construction Estimating using BIM (undergraduate and graduate students)

1. Extract the Bill of Material (BOM) from the Revit model (using Assemble).
2. Produce an Excel spreadsheet presenting the assumed construction cost (using Assemble).
3. Submit the “.rvt” file and “.xls” file containing the BOM and construction cost.
4. The ability to accurately produce the BOM and construction cost will be evaluated by the instructor, including: (1) completeness of building objects captured in Assemble (50%); (2) accuracy of unit costs (20%); (3) correct use of Assemble filters and output formats (30%).
5. **No presentations needed; the instructor will check each team’s project page on December 2.**

Final Project – BIM Presentation (undergraduate and graduate students)

1. Each team forms a BIM consulting company.
2. Prepare a whole lifecycle solution for construction management using BIM (must include main techs learned in this class).
3. Develop a visual-based presentation material for your plan to manage the project.
4. Submit “.ppt” file.
5. **Give a 30-min presentation to the class on Dec 2.**
6. Graduate students must include emerging visualization technologies in their presentation.
7. The final project will be evaluated by the *classmates* (20%) and the *instructor* (80%).

Final Project – BIM Review Paper (Graduate students only)

1. Write a research paper on BIM related topics. Examples include but not limited to: Overall challenges and opportunities of BIM; BIM applications in AEC industry; Data issues in BIM; BIM for facility management; BIM and mixed reality; BIM and AI etc.
2. Please use technical writing (e.g., Introduction, problem statement, objectives, literature review, summary and discussion, conclusions and future agenda)

3. >3,000 words.
4. **Report due on December 15.**

Grading Policy

Percent	Grade	Grade Points
90.0 - 100.0	A	4.00
87.0 - 89.9	A-	3.67
84.0 - 86.9	B+	3.33
81.0 - 83.9	B	3.00
78.0 - 80.9	B-	2.67
75.0 - 79.9	C+	2.33
72.0 - 74.9	C	2.00
69.0 - 71.9	C-	1.67
66.0 - 68.9	D+	1.33
63.0 - 65.9	D	1.00
60.0 - 62.9	D-	0.67
0 - 59.9	E	0.00

More information on UF grading policy may be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

PROTECT EVERYONE IN YOUR CLASS

- **You are expected to wear approved face coverings at all times during class and within buildings even if you are vaccinated.** Please continue to follow healthy habits, including best practices like frequent hand washing. Following these practices is our responsibility as Gators.
- **If you are sick, stay home and self-quarantine.** Please visit the UF Health Screen, Test & Protect website about next steps, retake the questionnaire and schedule your test for no sooner than 24 hours after your symptoms began. Please call your primary care provider if you are ill and need immediate care or the UF Student Health Care Center at 352-392-1161 (or email covid@shcc.ufl.edu) to be evaluated for testing and to someone who has tested positive or have tested positive yourself. Visit the UF Health Screen, Test & Protect website for more information.

Students Requiring Accommodations

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting <https://disability.ufl.edu/students/get-started/>. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.ua.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluer.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.ua.ufl.edu/public-results/>.

In-Class Recording

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

University Honesty Policy

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Conduct Code (<https://sccr.dso.ufl.edu/process/student-conduct-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Commitment to a Safe and Inclusive Learning Environment

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Jennifer Nappo, Director of Human Resources, 352-392-0904, jpennacc@ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: <https://registrar.ufl.edu/ferpa.html>

Campus Resources:

Health and Wellness

U Matter, We Care:

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

Counseling and Wellness Center: <https://counseling.ufl.edu>, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

Sexual Discrimination, Harassment, Assault, or Violence

If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the [Office of Title IX Compliance](https://title-ix.ufl.edu), located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, title-ix@ufl.edu

Sexual Assault Recovery Services (SARS)

Student Health Care Center, 392-1161.

University Police Department at 392-1111 (or 9-1-1 for emergencies), or <http://www.police.ufl.edu/>.

Academic Resources

E-learning technical support, 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu.
